

Policy Guidelines for Filling Privately Owned Swimming Pools

The Madison Municipal Utilities Department personnel will set up and remove the fire hydrant meter. The property owner will be responsible for:

1. Laying fire hose
2. Regulating the flow of water
3. Rolling up the hose when finished

In cases where the hose crosses the street or alley, the street or alley shall be temporarily closed with barricades to prevent the vehicles from driving over the hose. Proper street/alley closure form must be submitted to the Madison Public Works Department.

Associated fees are as follows:

1. Labor of \$50.00 per hour, ½ hour minimum with balance billed in ½ hour increments.
2. Service Vehicle of \$30.00 per hour, ½ hour minimum, balance billed in ½ hour increments.
3. Water used at a rate of \$3.00 per thousand gallons.
4. Hydrant meter charge of \$10.00 per day, one day minimum.
5. Fire hose charge of \$10.00 per day per 50 ft roll, one day minimum.
6. All work must be performed within normal operating hours.

Damaged or destroyed hoses shall be billed at cost plus 15% (estimated at \$350.00 per 50' roll). Damaged or destroyed hydrant meters shall be billed to the user at replacement cost plus 15% (estimated at \$1,200) each.

A 72-hour minimum notice is required to provide for scheduling of personnel and equipment.
